

ASX Announcement
Sirius Telecommunications Ltd
completes the sale of
Sirius Converged Solutions for \$1.2M

Monday 18th September 2006

Sirius Telecommunications Ltd (ASX:SIU) announced today that it has completed the sale of its Converged Solutions Division for \$1.2M. The announcement of the letter of intent was made in late June.

GlobalConnect, a leading convergence and contact center solutions provider, has acquired the Converged Solutions Division of Sirius Telecommunications, one of only three Tier-One Avaya partners in Australia, delivering enterprise level communications systems to corporate and government clients.

Over the past 2 years, GlobalConnect has been strengthening its presence in the Australian market especially in NSW and Victoria. By acquiring the Converged Solutions Division of Sirius Telecommunications, GlobalConnect will augment and build up its geographical coverage in the country and will be in a position to support customers nationally.

Speaking on this acquisition, Mr. Niru Mehta, Managing Director and Vice Chairman of Avaya GlobalConnect said, "Australia remains an important market for growth for GlobalConnect Ltd. With the significant investment we are making, we plan to grow and strengthen our capabilities and drive efficiencies to help Australian customers extend business opportunities by supporting their communication requirements."

The Converged Solutions Division delivers customer solutions in IP telephony, contact centres, mobility and unified messaging. In addition to these core technology areas, the division also delivers interactive voice response (IVR) and call recording solutions.

Roger Mason, Chairman of Sirius Telecommunications said, "The sale of SCS to GlobalConnect is an achievement for the company as it will be absorbed by Avaya's largest partner and reseller in Asia Pacific. With the increasing adoption of VoIP technology by Australian businesses, and growing operations of SCS, the division required substantial capital investment and financial backing of a large company such as GlobalConnect."

Of the \$1.2M sale price, approximately \$1M will flow to the Sirius company bank account, which will be used for a future acquisition.

About Sirius Telecommunications Ltd
