

## **ASX Announcement InfoMaster executes Wyndham City Council Contract**

4 November 2009

---

On the 12<sup>th</sup> May 2009 the Board of Sirius Corporation Limited (ASX:SIU) announced that InfoMaster Pty Ltd, a wholly owned subsidiary of Sirius Corporation Limited, had been advised as the preferred supplier in a competitive tender for the Supply and Implementation of a Corporate Asset Management Information System to Wyndham City Council.

The Board of Sirius is now pleased to advise that it has concluded all negotiations and has executed a Supply Contract with Wyndham City Council for \$690K inclusive of the first year support and maintenance costs. InfoMaster has already delivered to Council a project management plan and scope as part of the first phase of the project under a separate supply contract and the contract executed today comprises the software, project management, and integration and support costs for the project.

InfoMaster expects delivery and installation to commence in November 2009 and the project is scheduled to be completed by 30 April 2010.

Group Managing Director Mr Frank Licciardello said "that whilst the original timeline advised for execution of the contract was not met, that he is pleased that both parties have worked together well during the project planning and scoping stage to ensure the project expectations by both parties will be achieved. The process also reaffirmed Council's decision to work with InfoMaster as the level of system integration required for the project could only be delivered as a result of the flexibility, adaptability and scalability of the AssetMaster product."

The solution provided is InfoMaster's leading edge AssetMaster product. The AssetMaster product is built on a single software platform and delivers a comprehensive view of all asset types across the entire Council. Its features include financial integration and spatial decision support. The software will assist Council to manage risk and assist in the delivery of both long and short term asset and financial management strategies.

Wyndham City Council will join a growing list of customers such as the City of Melbourne, Central Goldfields Shire Council, Coffs Harbour City Council and Richmond Valley City Council, to name a few, that are already receiving benefits from the use of AssetMaster.
