

ASX Announcement

InfoMaster secures Local Government Association of Queensland Contract for 3 QLD High Growth Councils

9 March 2010

The Board of Sirius Corporation Limited (ASX:SIU) is pleased to announce that InfoMaster Pty Ltd, a wholly owned subsidiary of Sirius Corporation Limited, has secured contracts for the Supply and Installation of online Electronic Development Assessment (eDA) services to a further 3 High Growth Councils in Northern Queensland with the Local Government Association of Queensland (LGAQ).

The councils participating in this project include Gladstone Regional Council, Mackay Regional Council and Whitsundays Regional Council. The supply and implementation includes services that allow for an online Property enquiry, an online Land use enquiry and for the online tracking of a Development Application (DA).

This project is the third InfoMaster project under the Housing Affordability Fund Electronic Development Assessment programme (HAF-eDA). The objective of this Qld HAF-eDA project is for the delivery of a seamless, comprehensive and integrated electronic development assessment process in key high growth councils across Queensland to contribute towards improved housing affordability.

Group Managing Director Mr Frank Licciardello said that "this latest contract that has been secured provides an immediate opportunity for InfoMaster to establish a strong footprint in Northern Central Queensland and allows for the customer base to expand from South East Queensland, where support has been traditionally strong. It also continues to build on the relationship between LGAQ and InfoMaster in the region which was formed during earlier successful projects".

Geoff Reeves, General Manager of InfoMaster said "this latest project is an exciting addition to work we are currently undertaking with other councils with ePlanning in the region. Our MasterView and MasterPlan products and associated modules continue to increase the ability for councils to provide high demand services online to their customers.

InfoMaster now has in excess of 75 councils across Australia and New Zealand utilising their award winning ePlanning software.
