

ASX Announcement

InfoMaster signs distribution agreement with ThorSol Pty Ltd for MENA Region

22 April 2010

The Board of Sirius Corporation Ltd (ASX:SIU) is pleased to announce that InfoMaster, a wholly owned subsidiary of Sirius Corporation, has signed a distribution agreement with ThorSol Pty Ltd for the resale, support and configuration of the InfoMaster range of Asset Management Products and services and in particular the leading edge "AssetMaster" product.

The agreement covers the distribution of products on an exclusive basis to the Middle East and North Africa (MENA) region with a particular focus in the Kingdom of Saudi Arabia. Under Key terms of the agreement ThorSol (through its Amskan International division) will undertake all the sales and marketing in the region at its own expense and InfoMaster will work together with ThorSol and its nominated partners to supply the best of breed software solution including configuration services and support and customisation support for the use of the product in public utility and urban infrastructure applications.

ThorSol Pty Ltd is an innovative product and services technology company that applies science to safeguarding communities. ThorSol focuses on providing solutions for safety, security and emergency management (SSEM). ThorSol is actively engaged in the MENA region through its own network of contacts, agents and resellers. In recent times ThorSol activity has included the supply of Passenger information systems for the Dubai metro rail system, road engineering products channel development, emergency call box systems and supply of audio PA systems.

ThorSol also develops and provides sensors, products and systems to clients in Asset Management, OH&S, mass transit, road engineering, and emergency services and advanced technology development.

Group Managing Director Mr Frank Licciardello said that "the signing of a distribution agreement with ThorSol was a major achievement and a real opportunity for InfoMaster to sell its product in a region that has an urgent need for sophisticated software solutions. Whilst there was no current intention in the short term to enter the MENA region with our offering, we are delighted to have appointed ThorSol who have a great deal of experience, knowledge and relationships with partners in the region. It also reaffirms that the AssetMaster product continues to be identified in the market place as a best of breed asset management solution for the management of high end infrastructure assets".

Mr John Fick, Managing Director of ThorSol Pty Ltd said "after working with InfoMaster management executives to secure the distribution agreement subsequent to identifying the AssetMaster range of products as best of breed products in the market, he sees immediate opportunities to offer the solution in the region that should result in sales success for both companies in the region. The acceptance of the technology by Australian government and corporate clients, the professionalism shown by management and the capability set within InfoMaster staff were key to the decision to partner with InfoMaster".

InfoMaster now has in excess of 80 councils in Australia and numerous state and local government departments across Australia and New Zealand utilising there range of products and services.
